

You've got an ultimate productivity boost with Join in your workspace.

Fast, reliable connectivity and integrated security are at your fingertips.

Work is serious business at Flex by BXP. That's why your membership comes equipped with shared high-speed Internet, WiFi access, and A/V conference rooms, all powered by Join. Sign in to Join's terabit-scale cloud network, collaborate in tech-forward meeting rooms, and enjoy secure wireless access throughout. We've got you covered from day one so you can plug in and get down to business.

Features that deliver more power and productivity to your business:

Fiber internet. High-speed bandwidth, ready for your productivity needs.

Cloud infrastructure. Connected to our cloud-native network.

Integrated security. Preconfigured firewall to keep data secure.

No hardware. Complete, hassle-free managed technology infrastructure.

Predictable and reliable. Predictable, always-on performance.

On demand service. Simple subscription, change at any time.

Join is already in your workspace.

Contact Join for additional IT and collaboration services starting at \$59/member per month.
